

International Boys Day International Boys Day is a relatively new day of awareness on our UK calendar. This exhibition will focus on the way society affects the lives and attitudes of boys and men, from a care experienced perspective. With sub-themes of gender bias, sexuality, toxic and nontoxic masculinity, fatherhood and boyhood, we explore the often-dismissed subject of boys in modern day society. Deadline for submissions : 15th May. Please see Men and boys Coalition for more information. For enquiries, please contact our Arts Project Coordinator, Kim Cormack : kim.cormack@reesfoundation.org
